

Soapstone / Industrial Markers

Soapstone

- All white texture for excellent marking quality.
 Grain cut to ensure good strength and long
- service life.
- Marks will not contaminate welds and are easily removed.
- Low water content for increased hardness and resistance to breakage.

TWDykem

DYKEM® TXP®

The TEXPEN® stands out for its distinctive fine, medium and bold oil-based paint markings. Its stainless steel-ball valve action tip writes through oil, grease and underwater without losing legibility or brightness even in extreme weather conditions.

DYKEM® DALO®

The DALO[®] Marker is a marking pen with medium and bold tips that holds a high capacity of oil-based paint and is a larger version of the TEXPEN[®]. Its stainless steel-ball valve action tip writes through oil, grease, and underwater without losing legibility or brightness even in extreme weather conditions.

- Writes sharp, defined, bright marks on any surface including metal, plastic, glass, concrete, rubber & more.
- Ergonomically correct marker that enables you to mark at all angles, even upside down.
- Marker retains its shape.
- · Paint flow is controlled by the bulb at the end of the barrel.
- Drying time: 25-35 minutes.

Industrial Markers

action marker®

The dye-based DYKEM[®] action marker[®] is the solution for your quick-dry ink marker needs. This valve-action marker features a fibertip for marking on smooth surfaces. When not in use, the clip cap makes it easy to secure the marker in your pocket or on a clip board. The 44 style features a threaded end that can be screwed into a jig or apparatus for a continuous identification application.

- Available in 2 barrel sizes.
- Ink writes on smooth surfaces such as glass, aluminum, plastic, rubber and more.
- Marks will not smudge or rub off.
- Interchangeable and replaceable tips available.
- 6 to 8 times the writing life of most other capillary markers of comparable size.
- Drying time: 45 seconds-1 minute.

High Temperature Markers

High Temp TXP®

The High Temperature TEXPEN[®] has a stainless steel-ball valve action tip with heavy viscosity, oil-based paint is specially formulated for nonporous surfaces that reach temperatures of up to 2,000° F/1093° C. Marks become permanent and fused when heated. The High Temperature TEXPEN[®] is an ergonomically correct marker that enables you to mark at all angles, even upside down. Paint flow is controlled by the bulb at the end of the barrel.

High Temp action marker®

The High Temperature action marker® 44 and action marker® 33 are pigmented, oil-based, fiber tip pens that are specially formulated for nonporous surfaces that can reach temperatures of up to 2,000° F/1093° C. Marks become permanent and fused when heated. Both markers feature a clip on the pen cap that fits easily into your pocket or on your clipboard. The action marker® 44 has an extra large paint capacity. The action marker® 33 is lightweight and writes fine, distinctive markings.

- Perfect for marking on glass, metal and ceramic parts.
- Each color represents a temperature range.
- Drying time: TEXPEN® 25-35 minutes.
- Drying time: action marker[®] 45 seconds-1 minute.

DYKEM® BRITE-MARK® H₂0

DYKEM® BRITE-MARK® H_2O is a general purpose water-based marker ideal for making clear, bold markings on almost any surface in environments where VOC issues and Xylene use is a concern. DYKEM® BRITE-MARK® H_2O can be used to permanently identify inventory, assemblies, tools, finished products or work-in-progress while resisting most work related abuses or compounds.

- Vibrant colors.
- Excellent opacity.
- Xylene free.
- Low odor.
- Low VOC.
- High flash point >212° F.

STRIKE-MARK[™]

DYKEM[®] STRIKE-MARK[™] is an ink based permanent marker. This valve action marker features a fiber tip and an industrial strength ink ideal for permanent identification of parts or accessories. The clear, crisp marks resist fading even when subjected to varying extreme climates and dries in seconds.

- Fast drying.
- · Resists fading.
- Industrial strength ink.
- Marks will not smudge or rub off.

DYKEM[®] BLEED-THRU[™]

DYKEM[®] BLEED-THRU[™] is a fast drying ink marker that writes on almost any surface. It is ideal for fabricating structural steel or layout work where marks are required to bleed through a primer coat covering the marks. Marks bleed through when painted over with oil/solvent based paints and primers. Makes permanent marks on plastic, metal, glass, ceramics, and most non-porous surfaces. It can be used to permanently identify inventory, assemblies, machines, or finished products while resisting most work related abuses or compounds.

- · Bleeds through most paints and primers.
- Permanent marks on most surfaces.
- Can be used for identification purposes.
- Heavy duty aluminum body with large ink capacity.
- Chisel tips are replaceable to assure complete use of paint in each marker.
- Valve action mechanism prevents ink in barrel from drying when cap is left off.

Part No. 44541 - Black

SUDZ OFF®

SUDZ OFF® markers are perfect for temporary writing on non-treated, non-painted metal surfaces which require ink that is water resistant. Marks can be removed with detergents with a pH of 10 or higher.

- · Ideal for guality control.
- Interchangeable and replaceable tips make the pen more practical and long lasting.
- No "ghosting" occurs when removed with detergent.
- Drying Time: 15–20 seconds.

Valve Action[®] Paint Marker

- Marks with real paint, dries in 3 minutes.
- Valve action nib releases paint as needed for continuous marking.
- Marks on all surfaces including: metal, wood, glass, plastic, rubber, cardboard and paper.
- Lead-free.
- The 1/8" fiber nib is replaceable to assure complete use of each marker.
- · Durable metal barrel.
- Meets California VOC Regulations.
- Unit packaging: 12 of one color to a box.

Part No. 96867- Replacement tips.

Marking Range: -50° F to 150° F (-46° C to 66° C)

72 scrubs per bucket.

Removes:

- Dirt
- Oils
- Paints
- Epoxies
- Inks & Dyes
- Lubricants
- ٠ Cable Jelly

Also works on:

- Tools
- Plastics
- Vinyl
- Metal •

- Painted Surfaces
 - Part No. 42272

fend-all

PureFlow 1000[®] Emergency Eyewash Station

Delivers Eyesaline Solution, a purified, contaminant-free and physiologically correct solution, from a sealed, integrated delivery module; no special plumbing is required.

- Sure-grip handle provides instant, simple activation
- Activation straps display expiration date
- Integral fluid reservoir and drain valve captures waste fluid, simplifying disposal
- SEI certified to meet ANSI Z358.1
- Nozzle design provides a soft "ribbon" of Eyesaline at an ambient temperature and constant flow rate
- Warning signs show service requirements and save maintenance and inspection time
- 15 minute eyewash station
- Part No. 1000

Safety / Miscellaneous

19

Part No. 1050- Refill cartridges for the PureFlow 1000® Emergency Eyewash Station. Quantity: 1 set of 2 cartridges.

Single Wall Station

Contains one single use 32 oz. bottle of Eyesaline Solution for immediate flushing. The Single Wall Stations mount easily with peel-off self-adhesive (included) or screws. High visibility in any eye hazard area, ready for emergency flushing and decontamination of the eyes and face. Part No. 0461 - 32 oz.

Solar Guard[™] Sunscreen Towel Single Pack Gravity Dispenser

Solar Guard[™] combines a unique liquid sunscreen formula and a large, lint-free towel. The towel will remain open and retain its original size while applying.

SPF 30+

٠

- Sweat/Water Resistant.
- UVA/UVB Protection.
- PABA Free. ٠
- Greaseless. .
- 100 per box.

Insect Shield[™] Insect Repellant Towel

Insect Shield[™] contains 30% DEET - proven to prevent the transmission of West Nile Virus, malaria, dengue fever and Lyme disease.

• Easy application.

- Non-greasy. ٠
- Waterproof formula.
 - Long lasting protection.
 - Provides protection from the insects that carry the West Nile Virus.
 - 100 per box.
